**The stay at Solgården is in collaboration with  
*Norges Døveforbund (Norway's association for the deaf)***

Solgården is a Norwegian holiday and health centre whose goal is to receive both people who are healthy as well as those with disabilities, to give them a meaningful and health improving stay in a great climate. Solgården was built in 1972 and it is with great pride that we can say that Solgården is run based on the same ideas and visions on which it was founded on in 1972. Our goal is to organize holidays for those with reduced mobility and others with the need of a customized holiday within secure surroundings. The whole centre is wheelchair friendly. Each year we receive more than 5000 guests of whom approximately 1000 are mentally and physically handicapped and come with their own carers. Solgården does not receive any subsidies from the government and all revenue is used to further develop the holiday and health centre.

*Security - Well-being/pleasure - Joy*
